

National Lieutenant Governors Association Lt. Governors' STEM Scholarship Program

2024 PROGRAM OVERVIEW

The most successful program year to date!

Highlights: NLGA received **207 scholarship applications** from **28 states/territories!**
The 2024 Program is funding opportunities to **12 schools in 12 states/territories**, providing direct STEM education opportunities to **more than 4,300 pre-K – 12th grade students nationwide!**
Since the program's inception, **almost 10,000 students** will be impacted by the STEM Scholarship Program across **26 states and territories!**

In its third year, the *NLGA Lt. Governors' STEM Scholarship Program*, sponsored by ACT, is funding a diverse array of projects to support STEM opportunities for students across the country, as well as seeding new STEM opportunities, including:

- Equipment for high school EMT certification
- A schoolwide science lab
- A program to develop work-based learning opportunities in STEM fields
- A new STEM lab for robotics, coding and science
- Aviation and robotics supports for an Air Force JROTC high school
- A new gardening program for students living in food deserts
- Stop Motion Lab equipment for elementary students
- Materials to rebuild a winning remotely-operated vehicle for a deaf robotics team to compete internationally
- New and repaired STEM literacy materials
- Repair supplies for a Student-Led IT Help Center
- Curriculum for coding to improve recycling
- Drone simulator program for middle-schoolers

Funding will support programs and projects in several under-served areas and in both public and private schools.

The outreach for the Lt. Governors' STEM School Scholarship Program had massive impact, with lieutenant governors, state departments of education, STEM-focused organizations, and traditional media all promoting the Program.

That outreach means that policy makers, schools, teachers, and others across the country now know the work of NLGA and lieutenant governors in STEM – serving NLGA's mission and goals to promote the office of lieutenant governor and contribute to the delivery of important services for state and territorial residents.
