

National Lieutenant Governors Association

NLGA Consensus Resolution on Charitable Drug Donation Programs

WHEREAS, in a Gallup survey of nearly 20,000 U.S. adults, roughly one-third of respondents — the equivalent of more than 82 million Americans — said they have made at least one trade-off with daily living expenses to afford healthcare,¹ and

WHEREAS, health care affordability remains one of the leading concerns facing Americans, with national polling showing health care as Americans' top domestic concern in 2026² and that 59% of adults worry about affording prescription drug costs for themselves or their families,³ and

WHEREAS, prescription drug costs cause many patients to delay, ration, or forego treatment, with 43% of United States adults reporting that they have not taken medication as prescribed in the past year because of cost, including not filling prescriptions, substituting over-the-counter medicines, cutting pills, or skipping doses,⁴ and

WHEREAS, medical debt can impact individuals' credit ratings, and is one of the leading causes of personal bankruptcy in the U.S., with approximately 66.5% of personal bankruptcies tied to medical issues,⁵ and

WHEREAS, people with medical debt are five times more likely to forego mental health care than people without medical debt,⁶ and

WHEREAS, between 2018 and 2023, the number of retail pharmacies located in rural communities declined by 5.9%, compared with a 3.4% decline in urban communities, and the need for medication access is especially acute in rural areas, where transportation barriers, pharmacy closures, workforce shortages, insurance challenges, and "pharmacy desert" conditions can make it harder for patients to fill prescriptions and maintain treatment for chronic conditions,⁷ affecting the availability and affordability of prescription drugs and impacting health care costs, and

National Lieutenant Governors Association

23 **WHEREAS**, charitable medication programs, including drug donation repositories, can have a
24 positive impact on the availability and affordability of prescription medications, and can reduce
25 health system costs, and

26 **WHEREAS**, patient safety and medication integrity can be protected through uniform standards
27 requiring pharmacist-led inspection, original sealed or tamper-evident packaging, visible expiration
28 dates, secure recordkeeping, and

29 **WHEREAS**, a review of one charitable medication program showed a 27% reduction in hospital
30 costs to a multistate health system, and a 20% reduction in inpatient hospital stays,⁸ and

31 **WHEREAS**, SafeNetRx manages a drug donation repository and charitable pharmacy, and reports
32 that, for every \$1 invested, there has been \$20 worth of medicine made available to patients who
33 would otherwise go without, and patients save more than \$200 per prescription, and

34 **WHEREAS**, the results of a network of cancer drug repositories showed improved access to
35 cancer medications and a reduction in unnecessary medication waste,⁹ and

36 **WHEREAS**, more than \$5 billion worth of safe, unused medicine goes to waste each year,¹⁰ and
37 SafeNetRx estimates that, as a result of their programs, more than 800 tons of medication has
38 been redirected for distribution to patients in need or for environmentally safe disposal since
39 2007, and

40 **WHEREAS**, environmental stewardship and responsible medication management are essential to
41 protecting public health, reducing preventable waste, and safeguarding waterways, with the U.S.
42 Environmental Protection Agency saying that research shows that pharmaceuticals entering the
43 environment through flushing or other means negatively affect aquatic ecosystems, including and
44 fish and animal populations,¹¹ and

45 **WHEREAS**, charitable donation programs can redirect safe, unused medications to patients in
46 need rather than allowing them to be discarded or improperly disposed of, and

47 **WHEREAS**, state and territorial government leaders can advance efforts to address health care
48 availability and affordability through charitable drug donation programs and drug repository

49 programs to reduce the costs of prescription drugs, reduce the amount of medication waste, and
50 reduce the impact of improper drug disposal to the environment.

51 **NOW, THEREFORE, BE IT RESOLVED** that the National Lieutenant Governors Association
52 (NLGA) recognizes drug donation repositories and charitable drug donation programs as an
53 effective tool for reducing drug waste and addressing prescription drug costs.

54 **BE IT FURTHER RESOLVED** that NLGA encourages state and territorial government leaders to
55 explore drug donation programs and other efforts to safely collect, inspect, and distribute donated
56 medications for the benefit of patients, health systems, and the environment.

57 ADOPTED, this day, the 23rd of July, 2026.

58 Co-Sponsors: *Colorado Lt. Governor Dianne Primavera, Indiana Lt. Governor Micah Beckwith, Iowa Lt.*
59 *Governor Chris Cournoyer, Oklahoma Lt. Governor Matt Pinnell, Vermont Lt. Governor John Rodgers,*
60 *Wisconsin Lt. Governor Sara Rodriguez*
