

Creating Digital Equity Through Broadband Deployment and Public-Private Partnerships

Leigh Fox
President & CEO
Cincinnati Bell Inc.

Digital Equity

The pandemic has refocused the conversation on Internet connectivity. This connectivity is essential for individuals and families to access education, healthcare, and employment opportunities.

Introduction to Cincinnati Bell

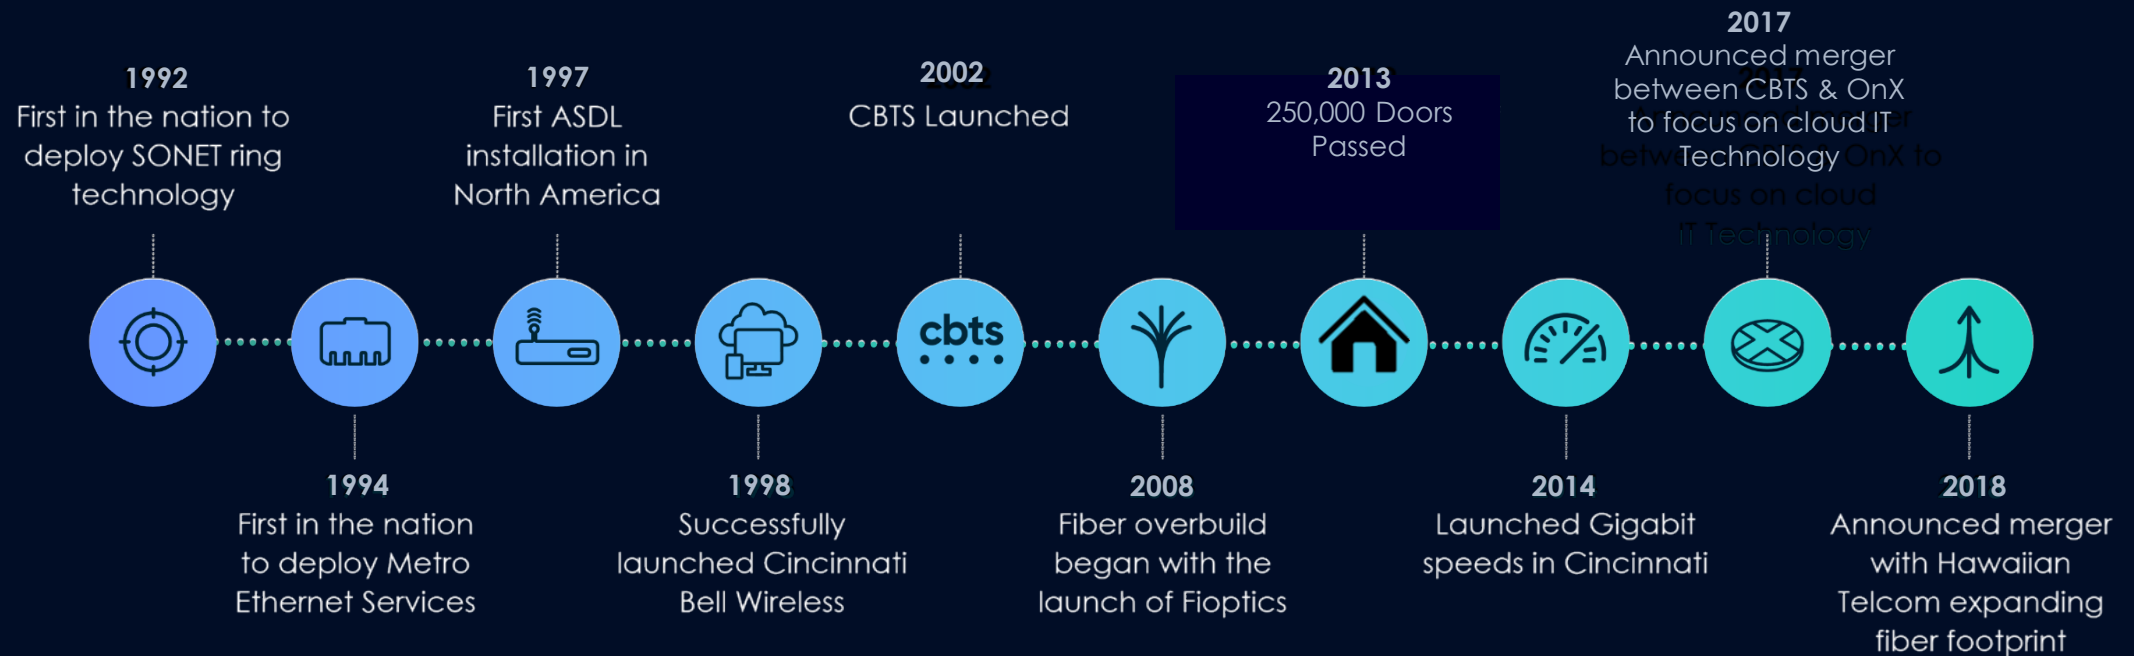

We design, sell, deliver and support communications, information technology and entertainment solutions via our world-class fiber network.

Cincinnati Bell History

150 Years of Change & Innovation

Importance of Public-Private Partnerships

We continue to develop Public-Private partnerships to bring a high-quality, low-cost internet service to the community.

Adding Value through Smart City Applications

We help our partners leverage those networks through value-added applications that increase the quality of life for their constituents.

Giving Back to the Communities We Serve

Our employees ultimately differentiate Cincinnati Bell from other companies, as we live in the areas where we work. Our family, neighbors, and friends are our customers.
