

National Lieutenant Governors Association

1 **Resolution Continuing the Public Leadership in Energy & Environmental Stewardship Award**

2 Whereas, the members of the National Lieutenant Governors Association (NLGA) recognize
3 many members play key roles in issues regarding energy and environmental stewardship in the
4 United States and its territories; and

5 Whereas, energy and environmental stewardship efforts may enhance the lives of all
6 Americans and impact every aspect of life in America today including energy, the economy,
7 community and building design, agriculture, water and other resources, clean technology, the
8 environment, transportation, social problem solving, job creation, education, health and healthcare, and
9 more; and

10 Whereas, public officials every day face the challenge and responsibility of balancing
11 development to meet today's needs with the ability of future generations to meet their needs; and

12 Whereas, General Electric notes the global economy requires corporations to create
13 relationships by participating in energy and environmental stewardship in the communities in
14 which they operate; and

15 Whereas, General Electric is long-time partner of the NLGA through its public-private sector
16 program; and

17 Whereas, General Electric is recognized as a "sustainability leader" by Dow Jones and is a multi-year Energy
18 Star Partner of the Year of the U.S. Environmental Protection Agency (EPA) and U.S. Department of
19 Energy; and

20 Now, therefore, be it resolved, that the National Lieutenant Governors Association
21 authorizes its Director, under the direction annually of the Chair, to work with General Electric
22 to present a NLGA Public Leadership in Energy and Environmental Stewardship Award presented
23 by General Electric to a NLGA member recognizing their action on energy and/or environmental
24 stewardship, understanding that same will create no negative fiscal impact to NLGA.
